

Mission Summary Sheet

Place a check under the planet or moon that has been explored by each "Type of Exploration" in the first column. Then, for each row, write down the name of the mission you think collected the most significant data.

Type of Exploraton	Mercury	Venus	Earth	Moon	Mars	Jupiter	Jupiter's Moons	Saturn	Saturn's Moons	Neptune	Pluto
telescope											
flybys											
orbiters											
lander											
crewed mission
